

B2B - Test

It is mandatory for all Shippers with Licence A or Licence B to obtain access to the B2B information services. Therefore a B2B test has to be performed with new Shippers (except for LC shippers). A certificate is a prerequisite for this access.

General information about B2B can be found via the following link to the GTS website: [Gasport and B2B](#).

How to implement B2B

B2B implementation documents can be found at the bottom of this web page by clicking on 'Shippers and Suppliers' (section 'Documents for other parties'). The documents (in PDF format) are named:

- GTS Information Services Shippers/PV
with Functional specifications of B2B queries
- How to implement GTS Information Services - Shipper/PV
with implementation instructions
- XML Schema GTS Information Services - Shipper/PV
containing XML schematics
- WSDL GTS Webservices - Shipper/PV
containing WSDL schematics
- B2B Example message
containing example message
- Setting up B2B and Frequently Asked Questions

How to perform the B2B Test

Step 1 – Request a certificate for the GTS information services (if not already available).

<https://www.gasunietransportservices.nl/en/gasport-b2b-certification/gasport-and-b2b>

On this page the documents 'Application form Online Services (Gasport-B2B)' and 'Quick guide certificates' can be found

Step 2 – Perform the 2 mandatory requests using the GTS B2B information services.

The mandatory B2B requests for the communication check are:

- Prognosis Operational SBS
- Prognosis Operational POS **(for new shippers not applicable)**

The requests should be done for the most recent data/values available.

After the requests are successfully performed, the results have to be sent in an e-mail to GTS (using email address below) providing the following information:

- Company name
- Portfolio code (56xxxxxxx) and/or Edigas code (GSxxx)
- Account used in request (GPxxxxx)
- Date and time of requests (in CET)
- Attached to the e-mail:
 - o the content of the received answers for the required requests (as XML file or screenshot)
 - o optional: the content of the required requests

Step 3 – GTS will reply to inform you about the results of the B2B Test.
