

## Converting capacity at PRISMA auctions

### STEP 1

Select the network point at which you want to convert unbundled capacity. Choose a bundled product and click on Bid.

Network point name	TSO	Direction	Marketable	Category	Product runtime	Starting price	
301113 EPT/EMDEN EPT (GASCO) ⚡ ⚠	GTS_V (GASPOOL) / GTS (TTF)	EXIT ENTRY	3,000,000 kWh/h	Firm / Firm	01.10.2018 06:00 - 01.10.2019 06:00	1.333 EUR/kWh/h/Runtime	Bid
OUDE STATENZIJL (GUD-G)[OBEBG]/300144 GUD ⚡ ⚠	GTS (TTF) / GTS_V (GASPOOL)	EXIT ENTRY	1,000,000 kWh/h	Firm / Firm	01.10.2018 06:00 - 01.10.2019 06:00	1.256 EUR/kWh/h/Runtime	Bid

### STEP 2

Under *Amount*, enter the desired amount of capacity you wish to bid on. Make sure this amount is not larger than the unbundled capacity you wish to convert.

If you need additional capacity in addition to the capacity to be converted, make a second bid in the same auction for the amount of additional desired capacity. You can read how this works later in this document under *Additional bids*.

If the conversion is not carried out, you will receive an email about this within a few minutes after the auction closes.

When you have filled in the details to be converted correctly and the bundled capacity is allocated to you, GTS will carry out the conversion.

After the conversion has been successfully processed you will receive a confirmation email. When you have converted capacity during the DA auction, the email will be sent around 19:00 LET.
