

## **Energy Decree and Energy Regulation articles and the Annual Report 2025**

The Energy Decree and the Energy Regulation apply to the activities we describe in the annual report. A number of the articles in the Energy Decree and the Energy Regulation relate to the financial statements. We have therefore prepared an overview of these articles and where they are addressed in the 2025 annual report of Gasunie Transport Services B.V. (GTS).

- Publication of the Annual Report, including the annual financial statements (Art. 3.40 paragraph 1 Energy Regulation)

For this, we refer you to the 2025 annual report of Gasunie Transport Services B.V. as available on this website.

- Creditworthiness of system operators (Art. 3.41 paragraph 6a Energy Decree)

The national transmission system operator GTS demonstrates its creditworthiness by means of a credit rating assigned to it as “investment grade” by a recognized credit rating agency. This is included on page 93 of the annual report.

- Expected development of creditworthiness (Art. 3.41 paragraph 6b Energy Decree)

GTS’s creditworthiness is currently well above the level required under Article 3.41 of the Energy Decree, and the outlook is stable. It is expected that the level of GTS’s credit profile will remain well above the required level over the next five years, as prescribed under the Energy Decree.
